

Dear Robert,

My wife Georgia and myself just wanted to put a quick note together to thank you and TACTLE MOSAICS for the superb job you did on the feature wall and our pool.

We are absolutely thrilled with the finished result and we have had the most incredible feedback from our friends and family.

After enduring the constant waste and mess with renovating our home recently we have been extremely impressed with the professionalism you and your staff have displayed. Not only have they shown incredible skill and workmanship but they completed the job professionally and efficiently, leaving our premises without a trace of the huge and messy process that's taken place. If all our trades people had been as skilled, professional and tidy as your boys then we would be a much happier household. Your understanding of our design concept and the the overall look of what we wanted for our outdoor area proved imperative to the outcome of the finished product. Your familiarity with the process, and your suggested changes to our original pool/tile design were much appreciated and the finished look and effect is much attributed to your design knowledge and experience.

We would be more than happy to recommend you services to anyone who appreciates fine workmanship and a truly unique finished product.

Thank you,

Sam and Georgia.
